SKILLS

- **Languages**: Python, C++, JavaScript, Bash (Shell Scripting)
- **Frameworks**: HTML and CSS, NodeJS, React
- **Tools/Platforms**: Kali Linux, Github, Wireshark, Nmap , ESP8266, Aedunio IDE
- **Soft Skills**: Problem-Solving, Adaptability, Critical Thinking

PROJECTS

Wifi Attack Simulator (Educational Cybersecurity Project) | Link *Oct 25 – Nov 25*

- Developed a **WiFi Attack Simulator** using **ESP8266** to demonstrate the concept of an **Evil Twin Attack** for cybersecurity awareness and ethical learning in a controlled environment.
- Implemented features such as fake WiFi access point creation, captive portal simulation, DNS redirection, and web interface management to help users understand common wireless network attack techniques.
- Configured the system using **C++ (Arduino IDE)** with ESP8266 libraries, enabling real-time monitoring, AP management, and educational demonstrations while emphasizing responsible cybersecurity practices

Tech Stack: ESP8266, C++, Arduino IDE, HTML, CSS, JavaScript, WiFi Libraries

Personal Portfolio Website | Link *Jul 25 – Nov 25*

- Designed and developed a clean, **responsive portfolio website** to showcase my projects, skills, and academic background with a modern UI/UX layout.
- Implemented interactive components and smooth navigation using **HTML, CSS, and JavaScript,** ensuring mobile-friendly and optimized performance.
- Highlighted major projects and integrated contact options, helping recruiters and clients easily view my work and reach out.

Tech Stack: HTML, CSS, JavaScript

TRAINING

Cyber Security Essentials *Jun 25 – Jul 25*

- Completed foundational training in **cybersecurity principles**, covering **network security**, **secure communication, encryption basics,** and common threat types such as malware, phishing, and social engineering.
- Obtained hands-on experience with security tools and techniques, including **vulnerability scanning, password hardening, firewall configuration,** and best practices for safeguarding systems and data.

Tech Stack: Networking, Firewalls, Encryption, Scanning

ACHIEVEMENTS

- Runner-up in a university-level hackathon for building an AI-driven project prototype
- Presented innovative project ideas during department-level innovation challenges at LPU
- Earned NPTEL Certification in Advance Compute Networks with 55%, strengthening expertise in TCP/IP, routing and switching, network protocols, wireless communication, and network security concepts relevant to cybersecurity.

CERTIFICATE

- Advance Computer Networks | NPTEL | Link *Dec 25*
- ChatGPT Made Easy: AI Essentials For Beginner | Link *Aug 25*

EDUCATION

Lovely Professional University Punjab, India
Bachelor of Technology - Computer Science and Engineering; ***CPGA: 6.45*** *Aug 23 – Present*

Matrix High Shool Sikar, Rajasthan
Intermediate; ***Percentage: 65%*** *Apr 19 – Mar 22*

Indra Pratap Singh Senior Secondary School Jobner, Rajasthan
Matriculation; ***Percentage: 87%*** *Apr 19 – Mar 20*
